REYGUN

WHO WE ARE?

The story of Koçak brothers started in early 2000s at Konya by making injection molds for defense and firearms industries. During this time they gained a deep expertise on hunting and sporting firearms in the leading companies of the Turkish industry. In the same time they have visited wellknown shotgun manufacturing companies internationally, thus gave them a global vision of design and production comprehension.

In the year of 2022 they have decided to establish their own company and brand to reflect the experience of the last two decades. Thus, the company Reygun is now raising for reliable products at an affordable price for the whole world.

As a natural result of Reygun's design and quality phillosopy the superior Poison pump action and Shadex semi auto shotguns are in service for international users.

Poison

PUMP ACTION

Poison
23R-101

Poison
23R-102
